Well, Jackie Tran does have to make sure he answers the door.

Yes, come along to the Bizzaroland known as Canadian immigration, where anything is what it is just brings on a nasty case of brain freeze followed by

One day the authorities rule they have "reasonable grounds" to believe Jackie is sprung from the hoosegow and back on the street.

Go figure. Actually don't try to figure. It hurts too much.

It isn't pretty seeing Jackie Tran's hotshot immigration lawyer Raj Sharm own fumes without even breaking a sweat.

And, when Otto Nupponen, yet another immigration paper shuffler in Vancouver, thumb up or thumb down on Jackie Tran ditching jailhouse digs for his own movie before knows the ending.

Jackie Tran, Calgary's most infamous bad actor, will score another Get Out

And, naturally, he does.

There are the same conditions for him to live on the outside. Tran's own lawyer, no, Otto of Immigration doesn't want to go that far. He finds no "credible

No extra bail money need be posted.

The suggestion Jackie Tran has to get a landline phone is turned down as government side losing every single point, is J.T. must answer the door if

Your scribe is not making this up.

If you listened to Otto of Immigration, you would think Jackie Tran is not

Things are "very uncertain," says Otto, because of a "huge change, a month

After all, Jackie was headed for a quick vamoose to Vietnam when legal by Exit sign, at least for the time being. Now, the same federal judge who has to hear the gangster's side of the story. That takes time.

Otto says he expects valid arguments will be made on Jackie Tran's behalf

And Jackie Tran will also take the feds to task over them naming him a gang member.

Otto of Immigration even agrees the latest reason Jackie Tran ended up in date with the Canadian border people.

He more than once mentions how he agrees with Jackie Tran's position on

As for the fact J.T. is now considered a gang member, Otto says that's not this nugget of information into account.

Then there's what turns into an inside joke. Sharma mentions J.T. being in some snickering from the press, Otto talks about how he doesn't want to t

The five-year yarn stumbles on. Way back when, if a judge had given Jack wouldn't be here. That's the law. But a judge gave Tran two years less one for the hamsters on the immigration wheel.

Sharma says Jackie Tran's hand is "immeasurably strengthened." J.T., not applying for a work permit he will likely get. It's hard to take in when heard vista, baby to this pain in the butt.

Sharma isn't surprised. He knows all about Bizzaroland.

"It can be argued he won't be removed," says the lawyer, looking at months reach a conclusion we all thought was at hand.

"It's not over yet."

He speaks these words with a big smile he has been wearing most of the day
